SUPPLEMENTARY INFORMATION: On June 2, 2016, the Department of Commerce (the Department) published the *Final Determination* on certain corrosion-resistant steel products from India.¹ In the *Final Determination* the Department inadvertently omitted its final analysis of critical circumstances. Pursuant to 19 CFR 351.206(c)(2)(i), the Department preliminarily determined that critical circumstances did not exist² and received no comments on this issue. the period March 2015 through October 2015 for the mandatory respondents.⁴ Because the *Preliminary Determination* was published November 6 (the beginning of November), we used data through October in determining critical circumstances for the mandatory respondents. For all other producers and exporters, our critical circumstances determination continues to be based on data through August, the latest month for which GTA data is on the record, and is thus unchanged from the *Preliminary Determination*. The Department continues to find that critical circumstances do not exist for the mandatory respondents, or for all other producers and exporters.

This correction to the *Final Determination* is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended.

Dated: June 8, 2016.

Assistant Secretary
for Enforcement and Compliance.
